

Locking finger bung
OPTIONAL

Get through your racking twice as fast with the Rack It Teer!

With a unique expandable bung / cam lock system, the Rack It Teer solid-seal system makes your racking much faster while using less nitrogen than with other racking devices. Feedback from customers have racking times per barrel cut in half. And with no nitrogen leaks, customers are getting 10 or more barrels extra out each nitrogen bottle. One Central Coast winemaker says “The Rack It Teer pays for itself in time and money saved with every use...”

What Our Customers Have Said:

“I have been using this kind of racking tool for many years; the innovations that Mr. Pratt has incorporated in his design are tremendous. The racking is clean and efficient, with great stability in the wand and a positive grip on the bung hole. This tool may even extend my cellar career! The only thing that bothers me about the Rack-it-teer is

that I didn't come up with it years ago, a guy who doesn't make wine did! I HIGHLY recommend this tool to anyone serious about their wines.”

— **Neil Collins, Tablas Creek Vineyards, California**

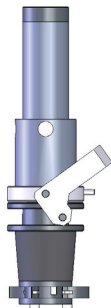

“Finally, a racking device that works. Thanks for making a unit with the winemaker in mind.”

— **Winemaker, Brochelle Vineyards**

‘Overall, the quality of the winemaking operations in my facility is foremost, and I appreciate having the access to new and improved equipment. When producing a product of the highest quality, I expect to have equipment of such high quality as well. The Rack-it-Teer allows me to keep such a high standard.’”

— **David Jones, Merry Edwards Wines, California**

Features:

- Cam lock expandable bung seals barrel securely (adjustable to any bung size... no more blowouts under pressure)
 - Site glass with hands-free flashlight holder (get the cleanest wine)
 - Dual gas ports (for easy connection and bleed-off)
 - 135 degree tri-clover sweep fitting (eliminate hose kinks and weight)
 - Special lees cup with adjustable screw (keep solids out of your line)
 - Stainless steel 316L / 304 construction.... (durable (body tested under forklift weight!) and sanitary)
 - Adjustable wand length (37" standard)
- 

The unique design of the Rack It Teer is patent pending (USPTO tracking number 12/218.520). If you have any questions please feel free to call Cellar Master Supplies by phone at (707) 307-8250 or e-mail info@cellarmastersupplies.com.
